Subject: EPA Notice of Availability Session and La Plata County Commissioners Meeting re: Upper Animas River Watershed

This message is being sent to the offices of US Senator Udall, US Senator Bennet, US Representative Tipton, State Senator Roberts and State Representative McLachlan. If there are others in your office who would be interested in this information, please pass it along.

An Open House Availability Session regarding water quality and related issues in the Upper Animas River Watershed will be held on **Tuesday, Sept. 23, 2014**, from **6:30 to 8 p.m.** at the **Silverton Town Hall, 1360 Green St., Silverton, Colo.**

Rob Runkel, a U.S. Geological Survey hydrologist, will provide information about the current results of the One-Dimensional Transport with Equilibrium Chemistry (OTEQ) Model, which is being used by federal and state agencies to characterize the fate and transport of selected contaminants in the Animas River and its tributaries.

In addition, representatives from the U.S. Environmental Protection Agency, U.S. Bureau of Land Management, and the Colorado Department of Public Health and Environment will be available to talk one-on-one about their recent sampling events and planned activities in the Upper Animas River Watershed. Representatives from the Animas River Stakeholders Group also will be available to answer questions related to their projects and planned activities.

This will be an informal discussion and participants can drop in any time during the session. Refreshments will be served.

In addition, EPA has been invited to make a short presentation to the La Plata Board of County Commissioners on **Wednesday, Sept. 24**, at **6:30 p.m.** in the **Anasazi Room, La Plata County Courthouse, 1060 E. 2nd Avenue, Durango, Colo.** The commission has asked for an overview of what EPA knows about water quality in the Animas River, current source control efforts and the long-term investigation/remediation process.

If you have any questions, please contact me, Whitney Trulove-Cranor, Acting Congressional Liaison, at 303-312-6099 or trulove-cranor.whitney@epa.gov.

Sincerely,

Whitney Trulove-Cranor

U.S. EPA Region 8
